"The Story of Coffee" Exhibition

10th July - 15th October 2019

7 Zulkaedah 1440 - 16 Safar 1441

Islamic Arts Museum Malaysia, Kuala Lumpur -

The **Islamic Arts Museum Malaysia (IAMM)** is proud to announce the opening of "**The Story of Coffee**" **Exhibition** starting from **10th July 2019 until 15th October 2019 at the Open Space Gallery**. The exhibition explores coffee as the world's most popular drink that has sparked a range of inspiration, opportunities, debates, and conflicts over the past 600 years.

Despite its admiration, little is known that this social drink had actually been prohibited several times due to many factors. Through culture and curiosity, unique coffee traditions from different historical

coffee regions are also shown to give the audience a ‘cup’ of Muslim hospitality in honouring one’s guests, alongside the related controversies in some regions. Amusing facts and fascinating information are also displayed to heighten visitors’ engagement and replicate the ambience of a coffeehouse setting.

The sections are divided into three main categories which are; scientific, historical and cultural. Strolling through the exhibition, visitors can imbibe the ambience of a traditional coffee house and go back to a time when this magical bitter bean reached the peak of its glory after it was firstly encountered by Kaldi and his dancing goats.

The exhibition is concurrent with the International Coffee Day, which is celebrated worldwide annually on 1st October. In conjunction with the exhibition, IAMM's Education Department has planned various exciting programs to complement a variety of audience, among all:
